Number of Years with
University _____

Date of Nomination: _____

CRITERIA OF EXCELLENCE

The following information should be included with the nomination form. The nominator is encouraged to work with the nominee to prepare a complete application.

1. Current Vita

Vita must include: a) educational background (institutions, earned degrees, dates); b) professional background, and c) published books, publications in refereed journals, juried exhibitions, musical performances, or other creative works.

2. Contributions to the Profession

This should include service to a professional society, editing or reviewing for a professional journal, and any research citations or awards.

3. Contributions to the University

Prepare a statement regarding the impact of the nominee's research program on the Department, College, and University with respect to research productivity, attraction of external funding, faculty collaboration, graduate programs, etc. Add any pertinent supportive comments not covered above.

4. Evaluations

Nominators should provide three letters of reference from individuals outside the University of Maine who can evaluate the major research contributions of the nominee. These referees should be qualified members of the nominee's discipline or of a closely related discipline and of national and/or international stature; credentials of the referees, not to exceed two pages, should also be provided by the nominator. In addition, up to three letters of support from persons inside the University may be included with the nomination.
